

Human Centered Design for an Integrated Navigation System

Raytheon Anschütz

Bjoern Schroeder, Product Management
November, 2019

Raytheon Anschütz – The Navigation Company

Raytheon
Anschütz

35,000

ships with Anschütz equipment

25,000

heading management systems

1,200

integrated bridge systems

600

skilled and committed employees

236

qualified service stations

95%

highest first-time-fix rates
in worldwide service

Leading role in central maritime
associations and R&D projects

Hands on core products
within certified processes

Continuous improvement model

I just want to park...

Requirements

IEC 60945

IEC 62288

IEC 61924_2

IEC 62388

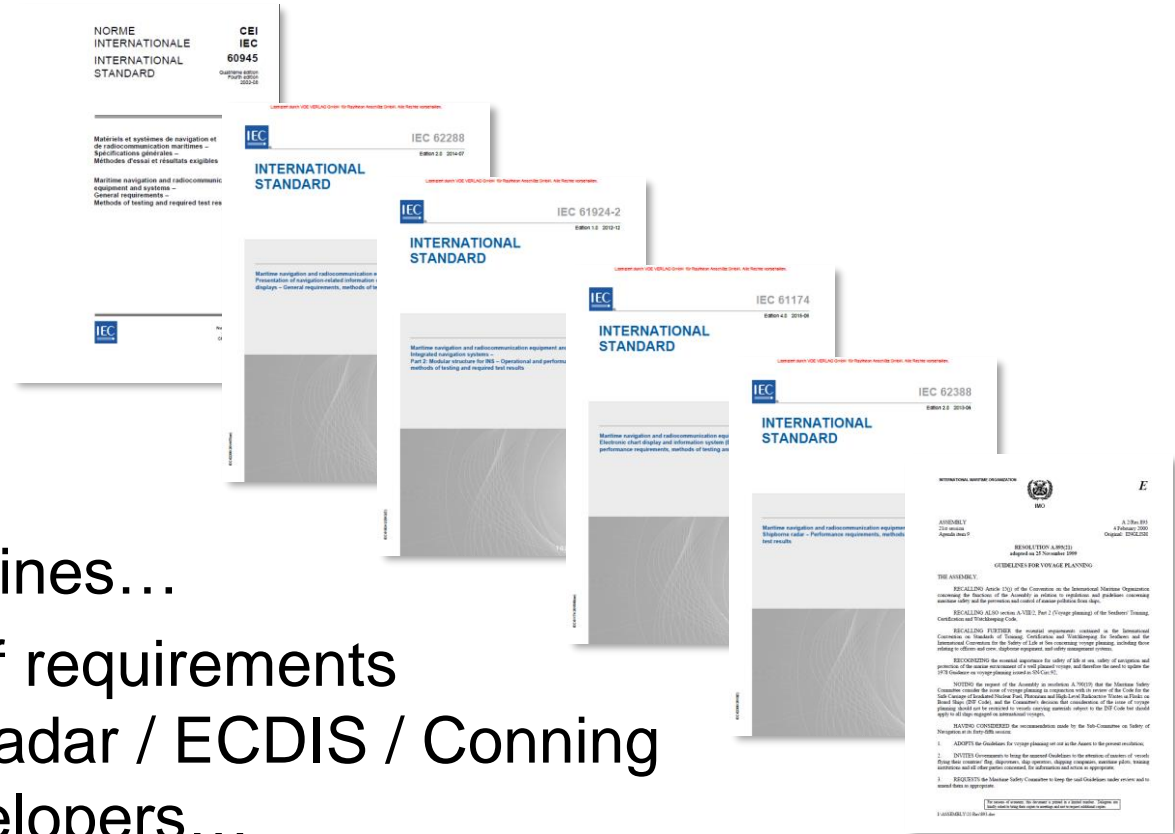

IEC 61174

IEC 62923-1

Additional IMO Guidelines...

Rough 1.000 pages of requirements

to build an INS with Radar / ECDIS / Conning
are thrown at the developers...

When they come back:
„All requirements
are covered...“

Late 2014 decision to build new SW

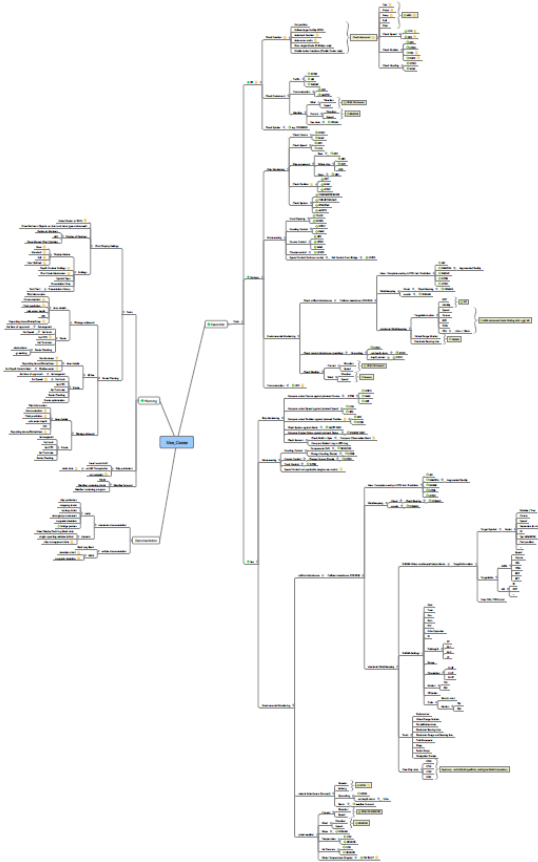

Main Goals:

- comply to the rules and standards
- be intuitive and easy to use
- reduce workload of the user
- incorporate customer feedback

2015: Data collection

- sort and prioritize customer feedback
- market research and benchmarking
- workshop with selected customer / stakeholders
- Bachelor Thesis “Usability and Workflow of Navigation”
- ECDIS Workshop with stakeholders at Navigation School
- Concept Study:
 - members of R&D with HMI-Design background
 - nautical students with practical experience
 - Industrial Design company specialized in HCD & Workflow
 - Product Management

Approx. 300 Use Cases sorted based on which one is used...

- several times per hour -> single click
- multiple times per day -> max three clicks
- once per journey -> multiple clicks
- only for generic settings -> settings mode

UI Design - Magnet Puzzle

Customer Review Workshops

- Sep 2015 - Presentation of Prototypes
- Dec 2016 - Presentation of ECDIS NX / Radar NX

Raytheon Anschütz

INVITATION

Presentation of the prototype of the next generation
Raytheon Anschütz Synapsis NX ECDIS

WE WOULD LIKE TO WELCOME YOU
at Raytheon-Anschütz, Dysthstraße 16-24, D-24106 Kiel, Germany
on 24 September, at 9:30 am

PROGRAM:

- Presentation of the concept principals and main goals
- Presentation of selected use-cases on the prototype
- Intensive discussion and feedback

We kindly ask for confirmation until 24th of August.

Björn Schröder

Raytheon Anschütz GmbH | Kiel, Germany | www.raytheon-anschuetz.com

Raytheon Anschütz

INVITATION

Presentation of the next generation
Raytheon Anschütz Synapsis ECDIS NX

WE WOULD LIKE TO WELCOME YOU
at Raytheon-Anschütz, Mecklenburger Strasse 22-36,
D-24106 Kiel, Germany
on 14th December, at 9:30 am

PROGRAM:

- Presentation of the next generation Synapsis ECDIS NX
- Presentation of selected use-cases
- Intensive discussion and feedback

We kindly ask for confirmation until 9th of December.

Björn Schröder

Raytheon Anschütz GmbH | Kiel, Germany | www.raytheon-anschuetz.com
