Transforming Maritime, Ahead of Time

**Certificate management made easy.**

# About Navozyme

## Transforming Maritime, Ahead of Time.

Award-winning scaleup with pioneering deep-tech solutions to digitalise and decarbonise the global maritime industry.

**Collaborating with global maritime leaders to unleash trapped value!**

**Recognised by IMO for pioneering blockchain in maritime**

<https://www.imo.org/en/About/Events/Pages/Blockchain-for-Maritime-Decisionmakers-.aspx>

**Top Blockchain Startup**

Singapore Government Accelerator

**Promising Startup**

**Selected by Atlantic Smart Ports Network.**

**Winner, EU Blue Economy Innovation Award.**

**Awarded prestigious Spanish Ports innovation grant.**

# Navozyme's Solution

Certificate management made easy.

For **ISSUERS (Flags, MTIs)**  
Cloud Interface & APIs

## N-CAP

### Always available

Easy access via the online cloud platform.

### API first

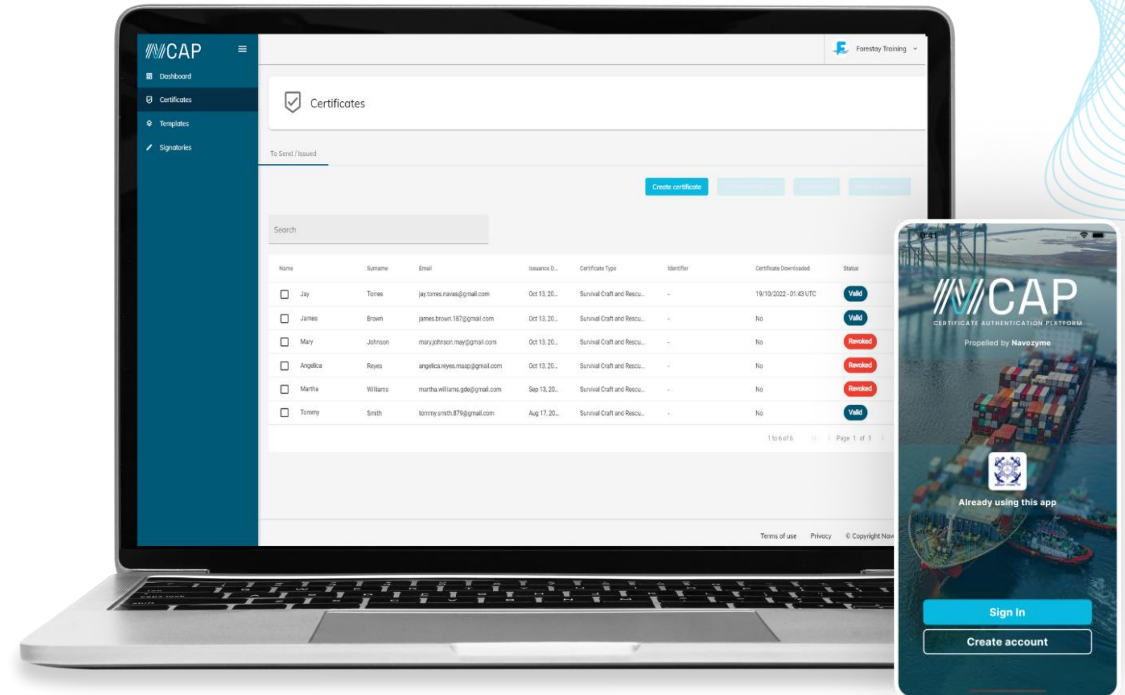

Easy integration with legacy systems.

### IMO Compliant

Aligned with guidelines for the use of e-certificates (FAL5 Circ39 Rev2/2016).

# Innovations

## Blockchain technology for critical data security.

Blockchain distributed network reduces risks & complexities in verifying certificates.

- ✓ Proactive real-time verification of data
- ✓ Instant fraud detection
- ✓ Enhanced cybersecurity & distributed network resilience
- ✓ IMO e-certificate compliant (FAL5 Circ39 Rev2/2016)
- ✓ Protects data privacy
- ✓ No mining required for consensus (Dfinity protocol)
- ✓ Reduced admin burden (auto generation of e-certificates)
- ✓ Decarbonisation gains : Eliminates need for paper processes (paper certificates & couriers)
